

SHARING ISN'T CARING

You would do anything for
your friends...

but when it comes to medicine,
sharing isn't caring!

Your meds are just for you.

Have leftover pill bottles sitting around your medicine cabinet? Properly dispose of them so that you aren't tempted to give them to your friends or family. For more information on how to properly dispose of medications and to see a list of permanent prescription drug drop boxes visit

www.RethinkRxAbuse.org and

click on Arizona Rx Initiative.
